

## *Natural Portrait Photography, 2011*

---

Natural Portrait Photography includes a one to two hour photographic session either at your home or at a public location. Many creative poses using a variety of natural backdrops provide an engaging photographic experience and a creative collection of final images. The goal from the Natural Portrait session is to have a final collection of about ten images that you love, including head-shots, head and shoulders, and full length poses.

### Example Print and Product Prices:

1 8x10:       \$25  
2 5x7's:       \$25
